

Stage 15

GPS: 36° 00.357 N; 115° 36.369 W

Stage Distance: 6.4 miles

Map 1 of 2

Note: The actual exchange point is moved in from the highway a few yards so that the follow vehicle does not need to move left, and go out of the shoulder lane at the exchange point.

See map # 2 for details of team traffic routes used at this exchange. A second light tower is used to provide light in the team parking area, shown on map #2.
