

## Portable toilets primarily for the follow vehicle use.

There will be four places along the course where follow vehicles have easy access to a portable toilet – all are on the first half of the race course and away from the congestion of an exchange point. If you stop at these please be careful not to block the shoulder of the road where follow vehicles drive.

**1 - Near Stage 3 - Dumont Dunes Road – 1/4 mile beyond the Stage 3 exchange point is Dumont Dunes Road. The follow vehicle can turn right on Dumont Dunes road and within a hundred feet are three portable toilets.**

**2- On Highway 127 at med-base. There will be two portable toilets placed within 100 feet of the highway at the entrance to the med base. This is near the end of Stage 5.**

**3 - On Highway 178, east of Shoshone. After making the right turn in Shoshone, onto Highway 178, there is a paved turn-out at 1 mile.**

**This is about a mile and a half into Stage 7.**

**4 - On Highway 178 – between Stages 9 and 10 – it is very close to 2 1/2 miles after the Stage 9 start, on the right at a dirt pullout – be certain you do not park on the shoulder of the road.**
