

Stage 16 Layout

February 28, 2020

Runner route is in yellow. Follow vehicle is dark blue. Red is existing fencing. Green is Early Warning announcer (Dan Sherwood). White is RV Support. Brown are the porta potties. **NO OTHER VEHICLES ARE ALLOWED TO PARK ABOVE THE BLACK LINE.** There will not actually be a BLACK LINE on the ground; the OIC needs to determine this parking boundary. Green square at the exchange is the timers. Blue square at the exchange point are the medics – medics can have ONE vehicle nearby as space permits. The white line over the cattle guard will be a row of delineators separating the incoming vehicles from the vehicles leaving. The yellow starbursts are the two light towers located at places selected by the OIC.
