

Stage 16

Runner and follow vehicle cross-overs

Stage distance: 6.4 miles

The Stage 16 runner will run a little under 5 miles on the right shoulder. Just prior to Mile Post 22.00 the runner and follow vehicle will be directed by the Nevada Highway Patrol to cross the highway to the north side of a divider and then run for about 1 mile on unpaved road base. The runner and follow vehicle will then be directed by the Nevada Highway Patrol to re-cross the highway and run the remaining half-mile on a paved surface to the finish line just east of the Las Vegas Archers Range. This is the same finish line as we've used in the past. The runner will then get into the follow vehicle and continue east bound, re-entering the regular Highway 160 traffic to Stage 17.
